

## DON'T WAIT ON YOUR **INTERNET CONNECTION** TO ENTER YOUR PROJECT'S **DOOR INFORMATION.**

### Introducing *VTspeedpak*.™

*VTspeedpak* gives you the freedom to enter all of your door information without having an internet connection. *VTspeedpak* runs as an offline application directly from your desktop. But once you have an internet connection, it takes one mouse-click to sync all of your information to *VTonline*. Here's how to get started:

Go to [vtindustries.com/vtspeedpak](http://vtindustries.com/vtspeedpak).

Click "*VTspeedpak*," enter your login and password, and download the application.

Once it's downloaded, click on the application icon now located on your desktop.

Enter all of your door information, then hit "SAVE"

Hook up to an internet connection and your information on *VTspeedpak* will transfer to *VTonline* once you hit transfer or submit.

For a more in-depth tutorial, go to [vtindustries.com/vtspeedpak](http://vtindustries.com/vtspeedpak) and click on the *VTspeedpak* documentation link.

If you have any questions, contact your sales rep, or contact VT Industries directly at:  
1-800-827-1615 ext. 227.
