

FSC Public Policy Commitment

It is the policy of VT Industries to implement its best efforts to avoid trading and sourcing wood or wood fiber from the following categories:

- Illegally harvested wood;
- Wood harvested in violation of traditional and civil rights;
- Wood harvested in forests where high conservation values are threatened by management activities;
- Wood harvested in forests being converted to plantations or non-forest use;
- Wood from forest in which genetically modified trees are planted.

If it is demonstrated that this company is using wood from such sources, we will take appropriate actions immediately, including stopping purchases from such sources for products covered by the policy.

VT Industries is committed to making best efforts to identify the sources of wood used for products labeled according to the FSC-STD-40-005 v.2, and to publish reports on the origin of material used in the products affected with sufficient geographical resolution to ensure compliance with the policy. If it proves impossible to identify the origin of some of this raw material, VT Industries is committed to replacing them with material which can be sourced in accordance to FSC standards.
